

Unité 15 – Jeux de classe

Quelle est la date de ton anniversaire ?

Focus: This game is to revise dates in terms of days and months. Points may be allocated to individual players or this may be played as a team game.

Preparation: The teacher may have to give the first example.

Jeu :

The teacher chooses a student to signal the date of his/her birthday (day and month, not year) using the fingers of both hands: first the day (e.g. for 31, signal 10 three times, then 1), then the month (for 12, signal 10, then 2). The other students have to guess and say the date aloud, e.g. *La date de ton anniversaire, c'est le trente et un décembre.*
